

“ Langer Construction followed through with everything they have said they would. After having a bad experience with another contractor in the past, this was a relief. It was obvious that Langer Construction knew the needs of my business. The project was completed on time, within budget, and with minimal disruption to everyday operations. I recommend Langer Construction.”

Mr. David Buerkle  
Owner  
Buerkle Automotive

Buerkle Automotive trusted Langer Construction to more than double the size of the dealership with a new 40,200 square foot addition and a 12,000 square foot remodel of the current facility.

Phase 1 construction of the new addition consisted of a: 22,000 square foot showroom with sales / finance offices and customer lounge; 10,000 square foot service drop-off area; 10,200 square foot service addition with car wash and detailing bays; site work to allow for a larger new car inventory.

Phase 2 converted the old dealership into a used car facility.

In addition, Langer continues to work at all dealerships within Buerkle Automotive on numerous small-scale and service-related projects.
