

“The Langer team immediately demonstrated their expertise in all aspects of project management...Langer coordinated a smooth bid process and recommended very capable, attentive subcontractors...The coordination of construction meetings and the identification of cost saving opportunities, kept the creative element in motion moving forward smoothly while maintaining the budget.”

Mr. Jeff Johnson
Building and Grounds Director
Hosanna! Church

After an intense property search, Hosanna! of Lakeville settled on a vacant Rainbow Foods building for a second campus. Langer Construction was able to utilize many of the assets of the existing space including a small gym space for youth activities, renovate the offices, build-out a large room into a nursery, utilize the dance studio for youth programs, and remove three rooms to construct a new 600-seat open worship space. The program has been so successful that Langer returned a second time to build-out a new commercial kitchen, expand the youth area, add counseling rooms, and build-out a portion of the free space for a tenant.
