

Langer Construction joined The Catholic Church of St. Rita's in celebrating 50 years of faith with the dedication and blessing of the new addition. This 9,500 square foot, two-story Faith Formation Center addition nearly doubles the current footprint and was necessary to address parish growth. The project includes 16 classrooms, nursery, youth space, dressing room for wedding parties, restrooms, elevator, and additional storage. Minor remodeling also occurred in the existing church as well as the creation of additional parking on the north side. The corners of the addition are curved to represent the warmth of Christ's encircling love.
