

Wooddale Church trusted Langer Construction to renovate 38,000 square feet of education space into the new Pre-K and children's areas. Large open areas for group sessions and small breakout rooms highlight the space. The project also included enlarging the Wooddale Cafe with enhanced food service, efficiency, and traffic flow.

“ Langer Construction has never let me down. I've worked with them on several projects and I have complete confidence that they will do what needs to be done, which is a true blessing. I sleep better at night knowing Langer is our contractor; safety is always first and foremost, they clean up daily, and there is minimal interference to daily ministry – Langer does a great job at spoiling us.”

Mr. Erik Hays
Facilities Director
Wooddale Church
