

The 11,000 square foot campus includes a sanctuary, fellowship hall with commercial kitchen, administration offices, nursery with a toddler sized restroom, classrooms, fireside room, and a library/ study. The traditional architecture of the previous building was carried into the new facility with a large steeple and spire that stands in the center of the building. The bell from the historic church was brought over and placed above the entry as a daily reminder of the church's 150 year old history.

**“** *I want to tell you how pleased I am with our new building! It's obvious that the finished product is well constructed with high quality materials. It's a joy to work and worship in such a nicely finished, bright and spacious environment. Thank You!”*

Rev. David Liddle  
Former Sr. Pastor  
First Presbyterian Church
