

Wooddale approached Langer Construction with a difficult remodel and aggressive schedule to give this second campus a new look. Langer completely remodeled the lobby, stairwell, family room, cafe, and Worship Center in three months. Langer returned shortly after to remodel the existing Sunday school rooms into a 60-student daycare center and updated the kitchen to meet these needs.

“ Langer Construction has been a pleasure to work with. They are very easy to communicate with and most importantly understand the culture of a church; i.e. navigating the delicate balance of keeping ministries moving in the midst of a significant project. I doubt anyone does this better than Langer! ”

Mr. Erik Hays
Facilities Director
Wooddale Church
